# MERYL NEXTEN

---

Thermal Comfort

*Meryl*<sup>®</sup>  
nexten

# Meryl® Nexten. Thermal comfort based on a unique hollow polyamide fiber.

## Insulating

Being air the most advanced thermal insulator, Meryl Nexten hollow fiber is able to create a genuine microclimate that protects the body against all temperature variations.

## Light

Meryl Nexten allows the production of 20-30% lighter fabrics with the same thickness or, alternatively, fabrics of the same weight which are superior in terms of insulation and protection.

## Comfortable and Resistant

Meryl Nexten ensures the wearer comfort in any weather conditions. It is the ideal fiber for protective winter garments and for light and comfortable thermal underwear.

## Discover Meryl Nexten Fresh

Meryl Nexten Fresh offers an antimicrobial effect thanks to its inherent silver microparticles and insulates the body. It reduces unpleasant odors and guarantees maximum comfort.

## Markets & Applications

Whether it is for bodywear or sport, Meryl Nexten provides unique value to protect the body from temperature variations.

**Socks solutions with Meryl Nexten**  
Up to 30% lighter socks compared to same thickness fabrics.

## Meryl Nexten main properties

### Temperature perception:

+3°C when Meryl Nexten is used

● Standard Meryl ● Meryl Nexten

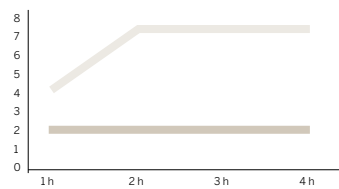

Meryl Nexten is able to create a microclimate that insulates the body against all temperature variations and ensures the wearer's comfort in any weather.

### Meryl Nexten Fresh, insulates and maintains the natural balance of the skin:

● No Treatment ● Meryl Nexten

LOG cfu (Colony-forming unit)

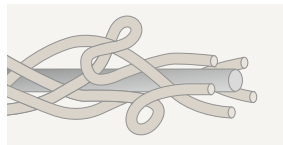

Human skin normally has bacteria presence. A high level of bacteria, as well as a complete absence, creates various problems (allergy, odor, illness, etc.). Meryl Nexten is not a bactericide: It neutralizes the bacteria level that is normally present on the skin.

\* ISO 20743 [Note: equivalent to JIS L 1902:2008].

## Meryl Nexten Stretch, premium hollow covered yarns

Discover the last generation of covered yarns proposed by Meryl Nexten Stretch. Thanks to their thermal effect they will maintain the temperature of the skin.
